

welcome to raw

Raw food

Raw food can be a healthy lunchtime dish or it can be a way of life.

The health benefits are numerous; we use only organics produce in the dishes and concentrate on healthy, nutritious proteins such as sprouting seeds, grains, nut milks, soy, almond, beans and pulses.

Raw is the ideal cuisine for those who prefer a vegetarian lifestyle where no meat, seafood or eggs are used, while our sauces and dressings are blended with uncooked oils, nut sauces, miso sauces, yoghurt, olive oil, vegetable purées and tahini creating scrumptious dishes that are both wholesome and tasty.

Healthy goodies & seriously raw food

RAW applies the same nutritious principles of healthy raw food whereby organic produce is used, however, these dishes can also include meat and seafood that can be served either dehydrated or in their natural state.

Incorporating an all over healthy attitude to food, we use only whole grains, organic herbs, in-house cured and pickled foods that are low in salt, unpasteurised ingredients, refined sugar and fat and we never deep fry.

Rather than refined white flour we offer wheat alternatives such as oats, quinoa, millet, rye, spelt, buckwheat and barley. You will also not see any artificial sweeteners on our menu. Instead our creative culinary team uses natural sugars such as honey, raw sugar, palm sugar, apple concentrate, fructose and fruit purées to add depth and bring out the real flavour in each dish.
